

we value you.

Nobody knows your payroll requirements better than you. And you know only too well how quickly payroll can change – and how critical it is to be accurate. Payworks welcomes the opportunity to talk to you about your unique needs and ways we can ensure your payroll system runs smoothly and problem-free. Payworks works because we create a payroll process with your direction, providing options so you can customize to suit your business. Once you're on-line, our relationship continues as you import information, create reports or require any technical assistance. Our goal is to give you the greatest accuracy and efficiency. And you're in charge of the works.

we work for you.

- flexible payroll set-up
- unlimited earnings, benefits and deduction capacity
- payroll preview feature
- real time processing
- robust report writer
- printing options

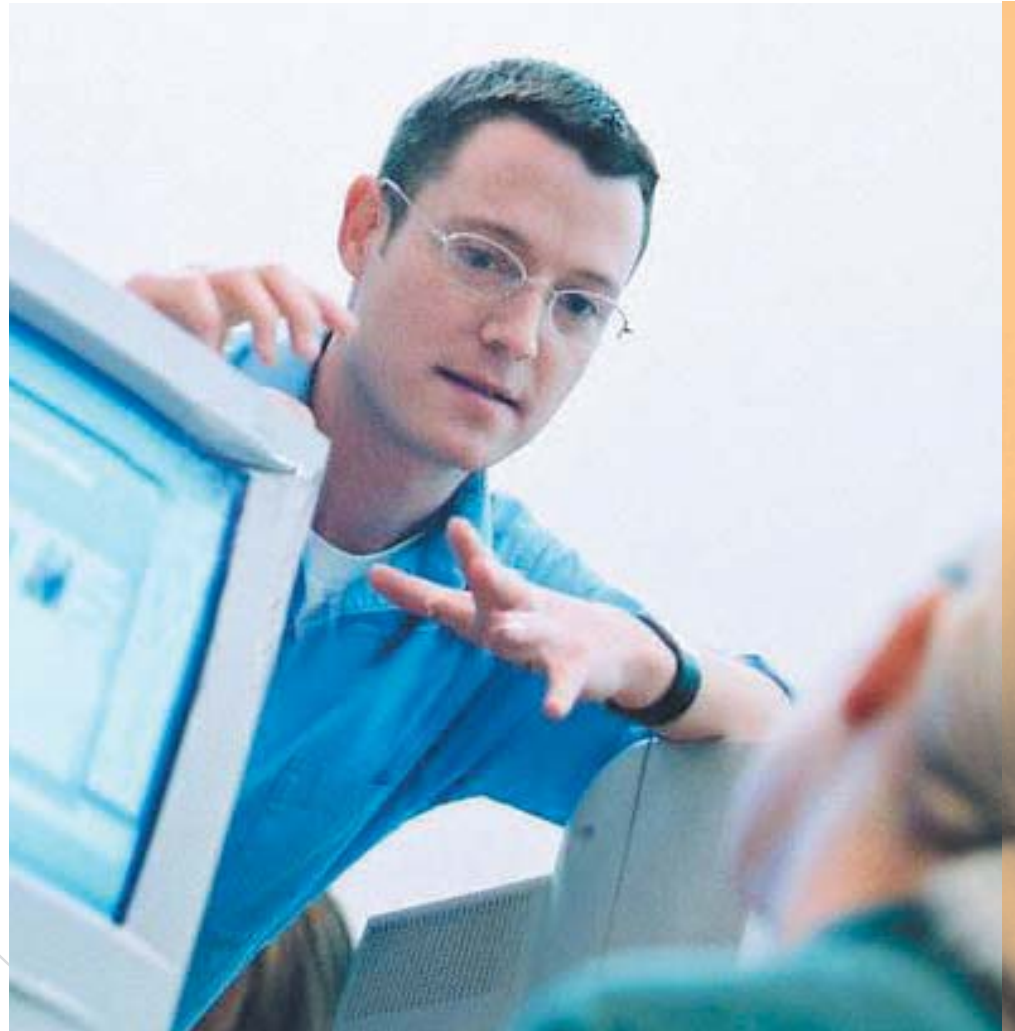

Let's work together to make your payroll easier and error-free. Call:

on-line payroll services

we work for you.

we listen to you.

When we first developed our payroll application, we talked to people like you – front-line payroll managers. We found out a lot about what is wanted, needed, and expected from a payroll service. And we responded.

- Accuracy – Priority one. Payworks accepts and continually checks to ensure requested changes are administered promptly and correctly.
- Perfect Payrolls – Our application features a Preview Function so you have the opportunity to see your entire payroll and complete results before your final payroll is printed.
- Ease of Use – We offer a click and play, intuitive program to run our payroll system. No complicated codes or cryptic instructions – just plain common sense solutions. Once our application is installed, you'll be set to work on-line within 20 minutes.
- Ad Hoc Reporting – You can design customized reports off your payroll masterfile information. Create reports using current-employee level data or current and or year-to-date payroll masterfile information. Then take it to the next step and export your data into Excel for "what if" analysis.

We listen to your needs. We listen to you.

Expect accuracy, efficiency and the ability to check every detail of your payroll before it is produced.

we respond to you.

We offer you our expertise in payroll procedures and policies. We can also help you with the implications of new employment regulations and laws. And we have a lot to offer when it comes to developing the best payroll system for your office situation. But we can't do this without you. You will help us build a streamlined payroll system for your office, with your choice of reporting options. You may decide to print in-house the information you require. Or Payworks can print and courier your output back to you. If you require self-sealed statements or cheques, we will provide them. You tell us what you need to make your payroll happen without a hitch.

We work with your input. We work with you.

Information, expertise and flexibility make us a valuable partner in your payroll process.

simple
efficient
accurate

we know you.

"With our former payroll company nobody told me what my options were. I had so much paper to deal with, plus from the start of our contract to its end I never met a human being in person."

Denise Douglas
Director of Finance & Administration
Vancouver, British Columbia
BC Chamber of Commerce

"With Payworks I have all day Monday to get the payroll ready to send on Tuesday. This suits our system. With our former payroll company it had to be ready on Monday no matter what."

Teresa Sutherland
Franchise Owner
Olds, Alberta
Boston Pizza

"Payworks is filling a void in the market. There are a lot of companies, small to medium-sized companies that don't have all the resources of larger firms who could benefit from the services of Payworks."

Pat Morrison
Assistant Manager of Payroll & Benefits
Schomberg, Ontario
Showa Canada

When you choose Payworks, an Account Representative will be assigned to you, someone familiar with your business and individual needs. So when you need assistance of any kind, we're there. We also have these important alliances that help make your Payworks Payroll Service even more viable:

- Johnston Group, one of Canada's top providers of benefit plans
- Telpay, for on-line bill payment

We're there when you call. We're there for you.

Personal. Professional. Payworks will take better care of you and your payroll demands.
