The State of the Province Address by Premier Brad Wall is a new initiative from the Saskatchewan Chamber of Commerce. Saskatchewan is prospering: the Province is home to more people than ever before, exports revenues are growing and our reputation nationally and internationally is strong. However, we are also facing challenges that need to be addressed. This inaugural **State of the Province Address** is an important opportunity for Premier Wall to share the government's agenda with stakeholders. The 2010/11 Provincial Budget will be released the week after this event and the Premier will be outlining some of the principles his government is adopting in this revolutionary budget. Don't miss this important event.
