About the Chamber of Commerce

A Chamber of Commerce is a voluntary business organization, supported by its member firms to promote the areas economic growth and development. A Chamber enables businessmen and businesswomen to accomplish collectively what no one of them could do individually, creating a pool of resources from which one can draw ideas, energy, and finances.

Your local Chamber provides a powerful voice on behalf of the business community; it speaks out on issues such as taxes, transportation, education, and labour that affect your business because you are located in the area. As a member of your local Chamber you make that voice even stronger to speak on your behalf. Your membership investment allows your local Chamber to be a resource of information and services for the business community and the region that it serves.

Many businesses both small and large support the Chamber because it is simply good business.

The Chamber of Commerce Online Business Directory

Your online billboard in the business world! Increase your SEO and enhance your online presence with a webpage on www.lloydminsterchamber.com

According to an Angus Reid Poll conducted, once people have found the product or service they require on a site, one of the top reasons people choose to make a purchase is the credibility of the business!

On the internet, it is difficult to provide credibility online. That is why the Lloydminster Chamber of Commerce has created the online business directory. The directory assists member organizations such as yours in reassuring credibility when the client is searching for products and services online.

This offer to participate in the online business directory is available to all members of the Lloydminster Chamber of Commerce.

Membership Advantage - Political Advocacy

The advocacy work that the Chamber does on behalf of its members is some of the most important work that the Chamber does. Each year, members are invited to participate with the board of directors to determine the policy direction for the year. Local resolutions are taken to the City of Lloydminster, provincial issues are presented at the Alberta and Saskatchewan Chambers AGMs in May, and federal issues are presented to the Canadian Chamber in September. The Lloydminster Chamber has authored and taken forward many policy resolutions that have seen changes made in legislation or actions at all levels of government.

The 2022 Selected Issues Report includes the following Policy Resolutions:

- Public Infrastructure to Support Community Growth (Public Transportation)
- Saskatchewan Funding for Policing in Lloydminster
- Adequate Internet Services for Businesses in Lloydminster
- Access to Net Care in Alberta by Saskatchewan Clinics in Lloydminster
- Social and Affordable Housing Strategy for the City of Lloydminster
